

DESCRIPTION:

The Izumi REC-6431 battery operated 12 ton class compression tool is suitable for applying compression fittings to copper, aluminium and ACSR conductors widely used in the industry. Featuring a trigger switch and return button which is activated by only one hand ensuring your other hand is always free to hold working material and making it suitable for working in tight spaces such as control boxes.

Includes an electronic LED circuit board, indicating compression status and battery capacity.

The REC-6431 also features an electronic memory function which records the number of compression cycles that the tool has made. Specifically tested to suit our CHT400D range of u-type dies and Cablecraft copper tube terminals from 35-400mm².

APPLICATIONS

For applying compression fittings to copper aluminium and ACSR conductors. Ideal for working in tight spaces.

KEY FEATURES:

- Powerful 14.4 VDC motor reduces operation time
- Eliminates RSI and pinch points on retraction
- LED light for dark working sites
- Non-slip soft grip
- Well balanced design for one hand operation (right or left)
- Quality backed by ISO9001
- One battery fits all Izumi tools

KIT CONTENTS:

Tool, battery, charger, moulded carry case and shoulder strap

PART NUMBERS:

PART NUMBER	KIT CONTENTS	PACK SIZE
IZUMI REC-6431 KIT	Tool, battery, charger, moulded carry case and shoulder strap	1

SPECIFICATION:

RAM STROKE: 31mm
MOTOR: 14.4 VDC
RESERVOIR CAPACITY: 153cc
FORCE AT DIE FACE: 120 kN
SIZE: 284 (L) x 431 (H) x 84 (W) mm
WEIGHT: 6.45 kg (without battery)
