

**POWERING
YOUR
PROJECT
SUCCESS!**

COMPANY OVERVIEW

Founded in 2016 By
Cameron Brandis, an
Engineer and Electrician
with over a decade of
hand's on experience in the
HV Sector

After managing Downer
HV services group, he
recognised the opportunity
to start an electrical
contracting business and
service

He identified a gap in the
market to provide
Technical Equipment Hire
Service that prioritises
customer needs

From here Brandis
industries was born and
shaped in to where we are
today at Brandis Hire

SECTORS WE SERVE

A photograph of a high-voltage electrical substation with various insulators and metal structures.

SUBSTATIONS

A photograph showing a large array of blue solar photovoltaic panels.

SOLAR

A photograph of server racks in a data center with blue lighting.

DATA CENTERS

A photograph of high-voltage power lines and towers in a wooded area.

HV MAINTENANCE

A photograph of power lines and towers against a cloudy sky.

UTILITIES

A photograph of an industrial facility with a worker in the foreground.

INDUSTRIAL ELECTRICAL

A photograph of a wind farm with several turbines in a hilly landscape.

WIND FARMS

A photograph of a person using equipment on the ground, likely for fault locating.

FAULT LOCATING

10 YEARS SUPPORTING THE HV INDUSTRY

We have proudly been supporting the HV industry for 10 years!

Some of our clients and partners have been on the journey with us from the start!

Our 10 Years of Service is to recognise these ongoing partnerships and we are proud that businesses have relied on us for their biggest projects!

SEAMLESS SERVICE

1. OBTAIN PRICING

Contact your Account Manager directly and they will efficiently and accurately provide you a quote for your order. This quote will include your desired dates and pricing.

2. PLACE ORDERS

Your Account Manager will be available to facilitate your order and ensure product availability and delivery are facilitated

3. RECEIVE EQUIPMENT

We cover the cost of the first three days of item transit so you have piece of mind about equipment that needs to travel a long way! We pride ourselves on supporting the entire Australian network!

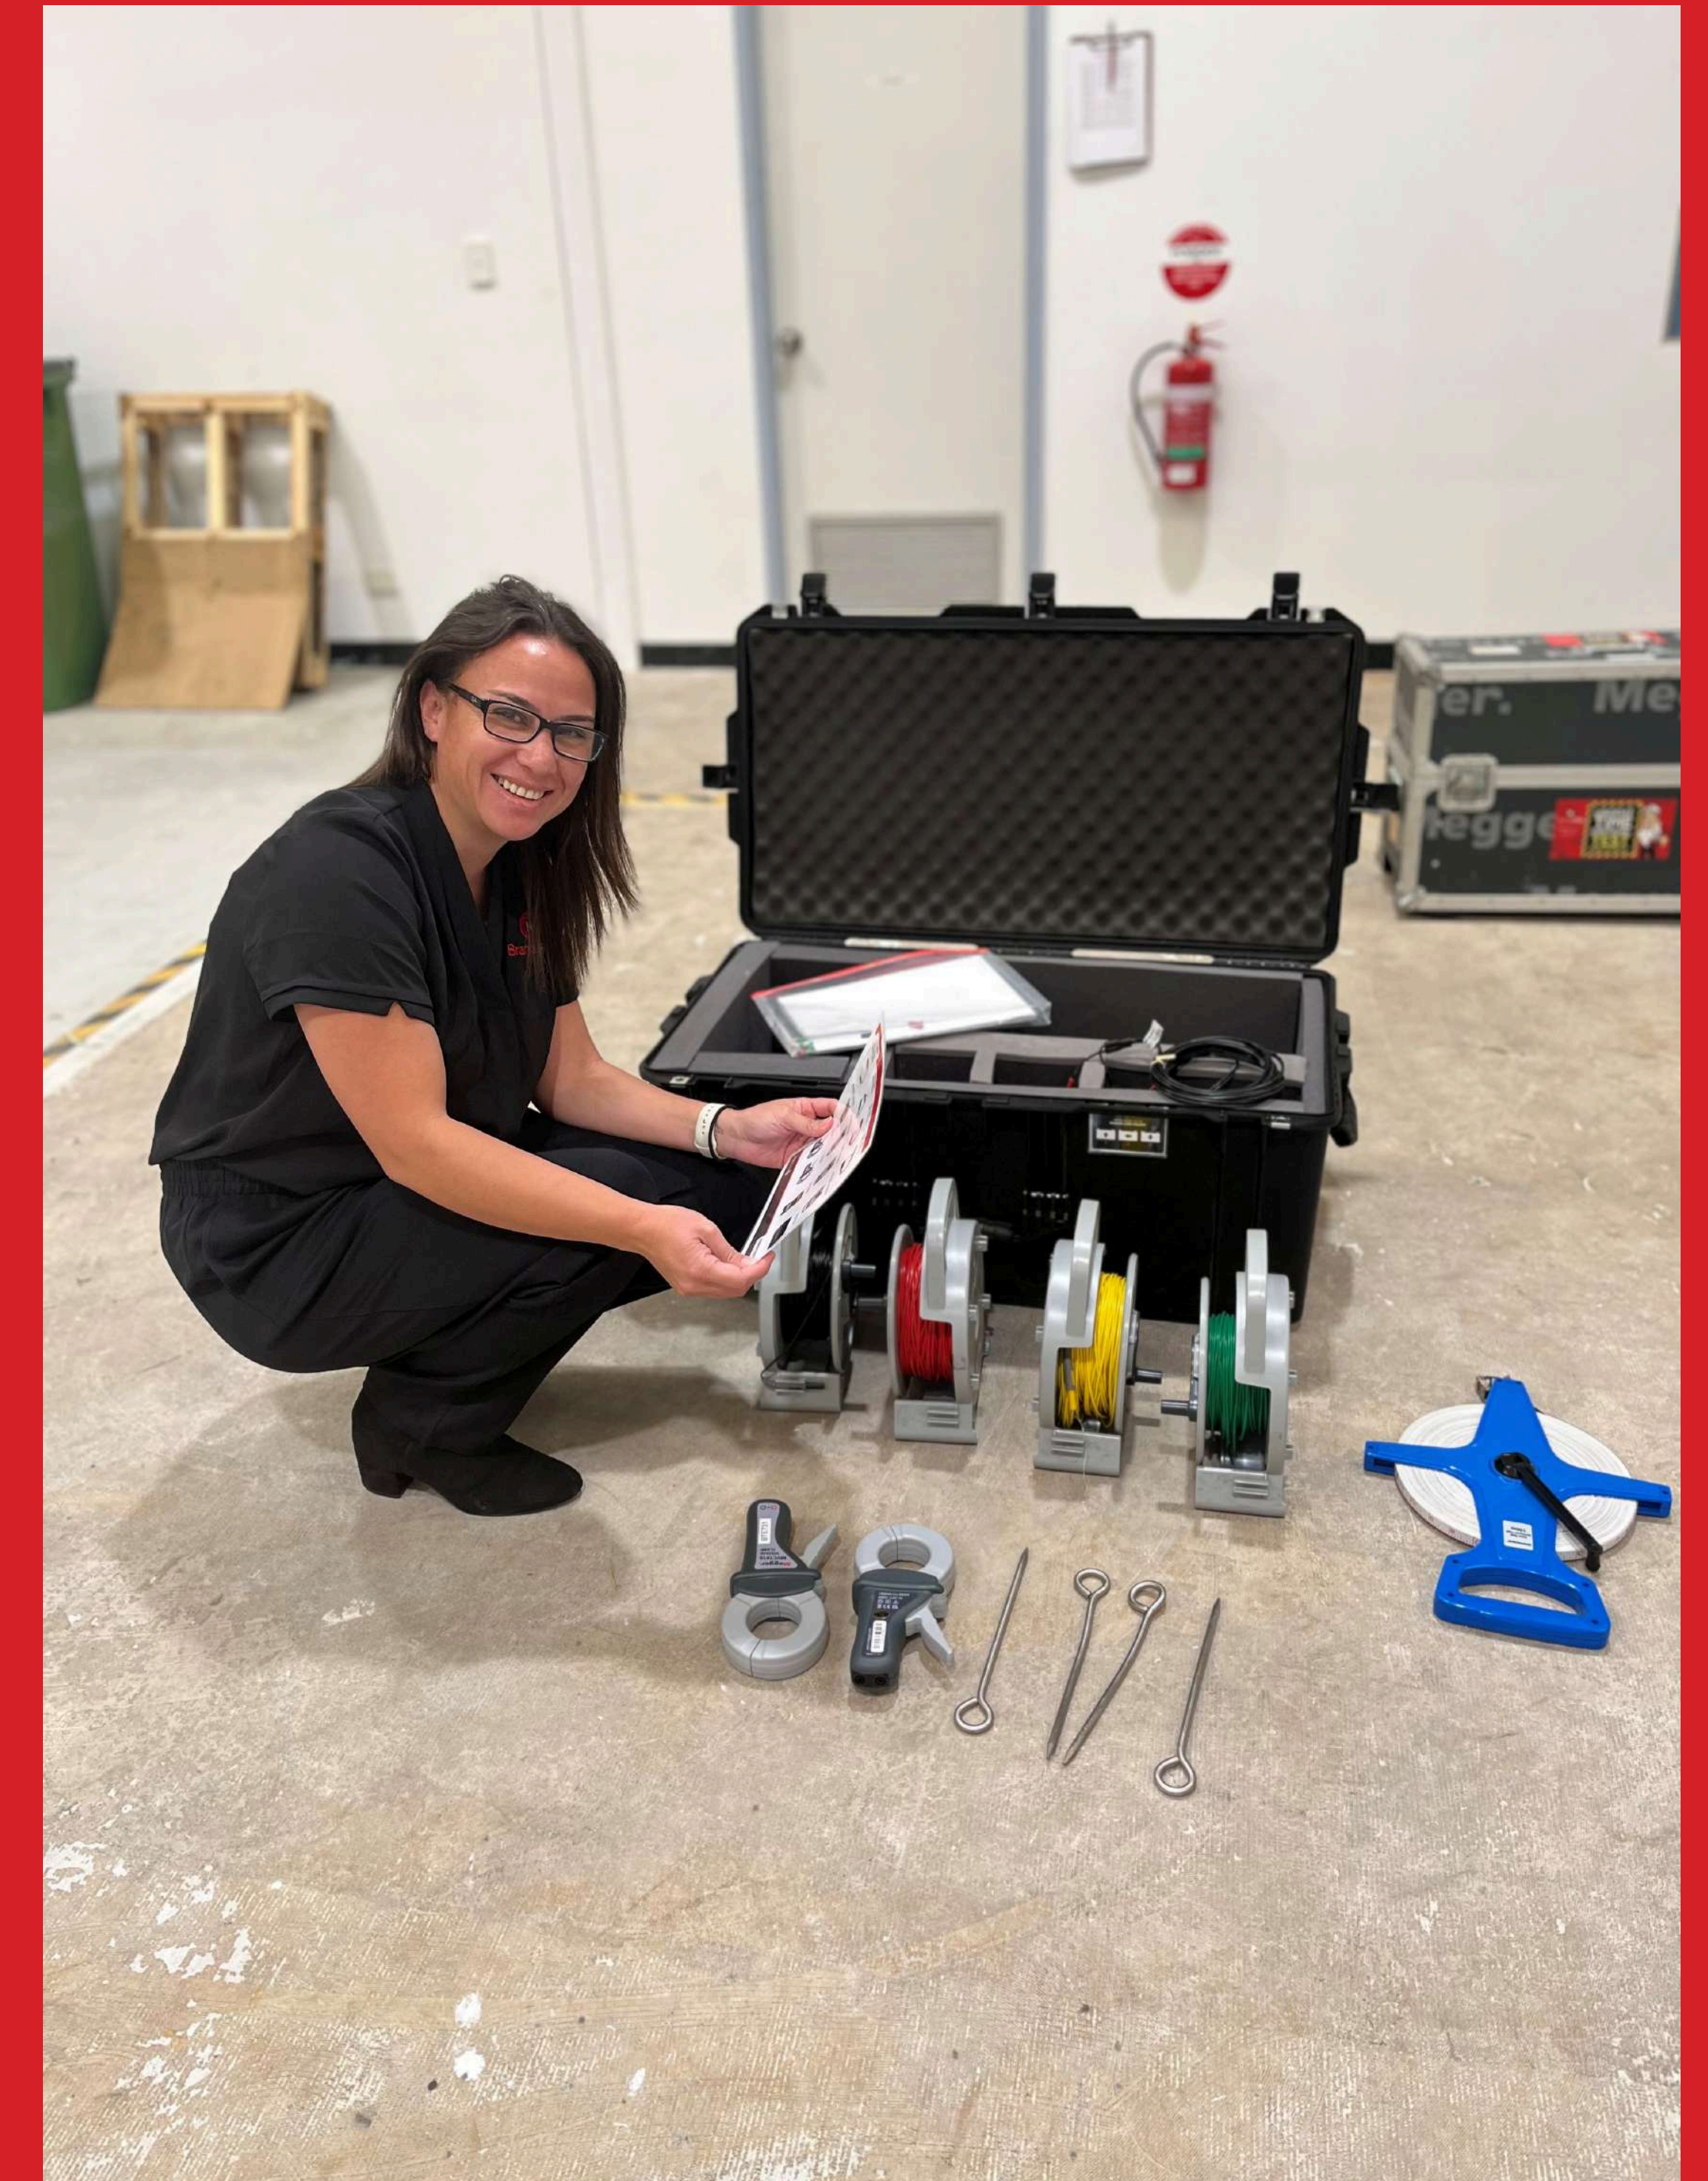

SEAMLESS SERVICE

4. RETURN EQUIPMENT

We take the stress and hassle for your returns. Your hire will end as soon as it's returned to our one of our warehouses. Alternatively, our team will organise the return of your equipment on-hire and all you need to do is attach the return shipping label to your nearest TNT/Fedex depot to your site..

THROUGHOUT YOUR JOURNEY..... ACCESS SUPPORT

We offer 24/7 tech support (if required) to ensure your job never has to come to a halt if you experience any equipment issues. We provide support and assistance from our tech experts on all our equipment! In the rare instance we can't assist we can access support via the product manufacturer themselves!

OUR KEY CLIENT PRINCIPLES

SERVICING OUR CLIENTS IS ALWAYS #1

We are here for you (always)

- We strive to always provide over and above service to our clients
- We are available for support 24/7
- If we can't supply it – we will find someone who can!
- We appreciate our clients
- We take the time to say thank you
- We show appreciation – Look out for our handwritten notes and our merchandise packs!

BUILD LASTING RELATIONSHIPS

Commitment to establish lasting relationships with our clients

Whilst we can always help businesses with one off needs, our focus is playing the long game. We want you to view us as your trusted hiring partner. We understand and place importance on the fact that success isn't solely measured by immediate results

THE WIN - WIN SCENARIO

Our Ideal Outcome

The win - win scenario is the most favourable outcome where both you and Brandis Hire benefit.

- You receive the necessary equipment to successfully complete your project, which in turn leads to trust in Brandis Hire. We want to fulfill on our commitments - leading you to be a satisfied client who we can share an ongoing future with

THE LOSE-LOSE SCENARIO

Our Second Best Outcome

Though this might sound odd! Our second best scenario is a lose-lose scenario. In this instance both you and Brandis Hire may face a setback. Occasionally, things can go wrong - if we can't resolve the issue, a lose - lose becomes the only viable option.

Our client receives their hire equipment items*, one piece of equipment has an unexpected failure on site and now our client is unable to finish their job

To address this, we may consider zero billing the order or shipping a replacement on the next flight at our expense.

Making amends where Brandis may have caused a delay or led to a client suffering a loss, we will absorb some of the impact to make it right
